By C. B. McDowell QUESTION ON SIMON?

Leamon LeCompte, one of the VOLUM. best-posted Bible students the area, takes exception to "Prince of Peace" exhibit showed in Elba recently. In "Simon of Cyrene" was picti as a black man. I was asked Mr. LeCompte for my opini I have queried several perso about the matter but so far have not come up with a conclusi answer.

The Bible does not definite state whether the man who was passing through the country and was forced to carry Jesus cross when the Savior was ov ercome on the way to Calvary was white or black. However, i is my opinion that Simon wa not a black man, although was from Airica. Mr. LeComp would like a solution of question.

Answer to Question No. 1:

1. More women die because of accidents each year than from any other cause except heart disease and cancer. It's just carelessness that prompts women to use kitchen chairs for ladders and matches near cleaning fluid. Last year 30,000 women died in accidents. Seven out of eight deaths of women over 65 were the result of accidents.

Answer to Question No. 2:

2. Yes, and physically superior to what they have been in the past. American soldiers in World War II were on an average %ards of an inch taller than their parents unless they retain their own pational food habits. This would indicate that increased knowledge of nutrition is paying off to the American public.

3. There is no one perfect food but milk comes closest to the ideal, especially for babies. Of the 111 healthful elements present in milk, the more important are calcium, phosphorus, and other mir erals, proteins and Vitamins A an. 3. Adults should include milk in their diet.
